In the summer of 2015, WMVY's signal expanded from approximately 800 watts to 12,000 watts. The outer circle on this map represents the general coverage area now heard by our listeners.

While some may think that 88.7FM is heard only by Vineyarders, or only on the Upper Cape, clearly our underwriters now enjoy a listenership that covers the entire Cape and a great deal beyond the bridges!

SIGNAL COVERAGE FOR 96.5FM

MVY's Vineyard signal has a repeater that gives our Underwriter clients coverage of all of Newport, and beyond!
